

Oak Orchard Lighthouse Museum Membership – 2011

It is obvious that a not for profit organization such as ours cannot be sustained and grow without the ongoing backing of members and supporters. Membership in the Oak Orchard Lighthouse Museum not only provides you with an opportunity to help develop an institution that will play a significant role in bringing people to visit and appreciate Orleans County and its many attractions. In addition it will provide the educational resources to help visitors, students, and local people understand the rich history of the area. We have also enlisted the support of local merchants listed below with them providing discounts to members upon the presentation of current membership cards. The names, addresses, and amount of discount is listed for your convenience. We encourage you to visit them and take advantage of this discount.

These merchants have made a commitment to this discount agreement for the 2011 calendar year. We hope to add others in the future.
